Radio H.F. Internet Newsletter

Volume 16, Number 1

January 2014

PDF created by the Digital Library of Amateur Radio & Communications from the original plain-text edition.

January 8, 2014 / le 8 de janvier, 2014

Welcome to the January 2014 edition of the Radio H.F. Internet Newsletter.

Bienvenue a l'édition de janvier 2014 de "Radio H.F. Internet Newsletter".

Sheldon Harvey
Owner, Radio H.F.
Editor/Publisher, Radio H.F. Internet Newsletter

THE RADIO H.F. INTERNET NEWSLETTER
VOLUME 16 NUMBER 001 – JANUARY/JANVIER 2014

Edited and Distributed by Sheldon Harvey
Greenfield Park, Quebec, Canada
Copyright 2014 Radio H.F. Publications

E-MAIL: hfnewsletter@yahoo.com mailto:hfnewsletter@yahoo.com
Please visit the Radio HF web page at: http://www.radiohf.ca http://www.radiohf.ca/

The Radio HF Internet Newsletter is distributed monthly, free of charge, to subscribers by e-mail. The Newsletter is a collection of web sites specifically related to radio (AM/FM, shortwave, Internet radio, amateur radio, scanning and CB), communications, telecommunications, radio memorabilia and collectibles, media, journalism, science, technology, space and astronomy, weather, transportation, plus some fun things thrown in for good measure! Each edition includes links to web sites submitted by subscribers or by the editor. All sites are reviewed, verified and presented to you, with the URL, and a brief description of each site.

The Newsletter arrives in your in-box as an easy to read e-mail; no complicated attachments, and no fear of viruses. The Newsletter is distributed to over 1500 subscribers. The subscriber list is secure, private and confidential. It will never be sold, redistributed or displayed.

Subscribers are encouraged to send along web sites for inclusion in future editions of the Newsletter. All contributors whose sites are published will receive a 2% discount on their next purchase from Radio H.F. The e-mail address for all contributions, comments, and subscription requests is hfnewsletter@yahoo.com mailto:hfnewsletter@yahoo.com
.
Archived editions from May 2005 to the most recent may be found at:
THE RADIO H.F. INTERNET NEWSLETTER YAHOO GROUP
http://groups.yahoo.com/group/hfnewsletter/ http://groups.yahoo.com/group/hfnewsletter/

Earlier editions from February 1999 to April 2005 may be found at the following URL:
http://www.cidx.ca/radiohf/index.html http://www.cidx.ca/radiohf/index.html

DISCLAIMER: The contents of web sites featured in this newsletter do not necessarily represent those of the editor, or the contributor, unless specifically noted. The editor reserves the right to refuse publication of any website link submitted by a subscriber should the editor deem the site inappropriate for the Newsletter.

To remove yourself from the distribution list of this newsletter, simply contact me by e-mail.

Happy New Year and welcome to the first edition of the 16th year of publication the Radio HF Internet Newsletter. Thank you to those of you who sent along birthday wishes for my 60th birthday on January 5th. Many of you throughout North America at this time are experiencing some record-setting low temperatures. So snuggle up to your computer, stay warm inside, and enjoy this month's edition of the Newsletter.

We have the first of the 2014 amateur radio fleamarkets and hamfests listed in the Hamfest/Fleamarket Zone this month. If you have an event coming up, please send along the details. Unfortunately, due to space requirements, we only list events taking place in Canada.

In this month's Radio HF Book Review Zone, editor Skip Arey looks at the RSGB's "Computers in Amateur Radio".

Our Monthly Special Zone for January features web pages on Martin Luther King Jr. Day, the UN's International Holocaust Remembrance Day, Robbie Burns Day and the Chinese New Year.

This month's virtual voyage around the world, in the "Where in the World Zone", takes us to western Africa, to the country of Sierra Leone. Officially the Republic of Sierra Leone is a country in West Africa that is bordered by Guinea to the northeast, Liberia to the southeast, and the Atlantic Ocean to the southwest. Sierra Leone is a constitutional republic with a directly elected president and a unicameral legislature. The country has a tropical climate, with a diverse environment ranging from savannah to rainforests. The country covers a total area of 71,740 km2 (27,699 sq mi) and with an estimated population of 6 million.

We have another low turn-out of contributors this month. See your name in the contributors' list by sending along a webpage, or two, that you feel might be of interest to our subscribers.

Let's get on to this month's links.

RADIO H.F. PUBLICITY ZONE #1

NEW FROM YAESU

Yaesu FT DX 1200 HF/50MHz Transceiver

The FT DX 1200 provides up to 100 Watts on SSB, CW, FM, and AM (25 Watts carrier) and a rugged state of the art highly balanced receiver circuit configuration for top performance on today's crowded bands. Similar to the high-end "YAESU FT DX" series, it uses 32-bit high speed floating point DSP for renowned proven performance.
A built-in 4.3-in TFT wide full color High Resolution Display with loads of information provides superior operability and visibility for the FT DX 1200 user. A Spectrum Scope located just below the LCD display gives the operator all the information needed to place them at the right place on the band with the right receiver set-up to have a satisfying experience with a casual QSO chat or while digging out a rare desired weak signal contact.
This rig is ready to give very high performance on all Amateur Radio bands from 160 to 6 meters.
-General Coverage Reception from 30 kHz to 56 MHz
-FM & AM - Wide and Narrow modes included
-Antenna Tuner Included

For complete details on the new Yaesu FT-DX1200 transceiver please visit the Yaesu page at http://www.yaesu.com/indexVS.cfm?cmd=DisplayProducts&ProdCatID=102&encProdID=9D00B8E5727EF1E6778041A8B0133A22&DivisionID=65&isArchived=0 http://www.yaesu.com/indexVS.cfm?cmd=DisplayProducts&ProdCatID=102&encProdID=9D00B8E5727EF1E6778041A8B0133A22&DivisionID=65&isArchived=0

Yaesu products are available from Radio HF. Contact Radio HF for complete details.

http://www.zianet.com/sparks/transmitters.html#virtual

VIA Jerry Proc, Toronto, Ontario

If anyone wants to operate and experience a spark gap transmitter, there is virtual machine at this site. It requires JAVA version 7.45 to operate. If you don’t have it, the browser

displays an empty rectangle below the title
“A Virtual Spark Transmitter” With your mouse button, you need to energize the transmitter before it will transmit.

RADIO H.F. BOOK REVIEW ZONE

EDITOR: T. J. “Skip” Arey

Computers in Amateur Radio
Edited by Steve White G3ZVW
ISBN: 9781-9050-8685-6
Published by: The Radio Society of Great Britain
Available from: The American Radio Relay League
$24.95 US or Canadian
ARRL Order # 6193
ARRL
225 Main Street
Newington, CT, 06111-1494 USA
Tel:1-860-594-0200 Fax:1-860-594-0259
hq@arrl.org mailto:hq@arrl.org

Amateur Radio has been part of the personal computer movement since its inception. Apple Computer Founder Steve 'Woz' Wozniak held the ham call WA6BND. Ever since those earliest days, hams have been figuring out ways to use computers to improve performance and enhance productivity in their shacks. While there are countless books written about personal computers, very few have been dedicated specifically the world of amateur radio. So I was excited to get my hands on this latest book dedicated ham radio computing. Steve W3ZVW gathered a group of hams with special skills and interests in ham radio computing.

Going through this book shows how far we have come from those early days of hand coding simple antenna formulae into Tandy Model 1’s or Apple II’s. The book begins by looking at the more obvious uses we almost all prefer these days: Data Modes and logging. It goes on to software for antennas, propagation and even terrain modeling. Specialty modes are completely covered including Slow Scan TV, D-Star, APRS and Internet based operation.

The book goes beyond the traditional PC environment to look at how hams can make use of small systems such as the now ubiquitous “Rasberry PI” single board computer.

All of this is supported by an included CD ROM full of useful programs to get even the crustiest old timer up to speed with modern ham computing. This book belongs on the shelf of anyone who wants to take their home stations up a few notches using PC technology. Highly recommended!

This book is available from ARRL or from your favourite radio book dealer.

THE GENERAL ZONE

PURE VOLUME

http://www.purevolume.com http://www.purevolume.com/

VIA Sheldon Harvey, Greenfield Park, Quebec

PureVolume is a website for the discovery and promotion of new music and emerging artists. Each artist has a profile that typically contains basic info, updates, photos, shows and music for streaming. Artists have the option of making each of their songs available for free download. Listeners and fans can also create profiles to interact with artists and each other, as well as track and share music they like.

HELIOPHYSICS

http://www.vsp.ucar.edu/Heliophysics/ http://www.vsp.ucar.edu/Heliophysics/

VIA Sheldon Harvey, Greenfield Park, Quebec

Heliophysics is all of the science common to the field of the Sun-Earth connections. This fast-developing field of research covers many traditional sub-disciplines of space physics, astrophysics, and climate studies.

INTERNATIONAL ASTRONOMICAL UNION MINOR PLANET CENTER

http://www.minorplanetcenter.net/ http://www.minorplanetcenter.net/

VIA Sheldon Harvey, Greenfield Park, Quebec

The Minor Planet Center, or MPC, is the single worldwide location for receipt and distribution of positional measurements of minor planets, comets and outer irregular natural satellites of the major planets. The MPC is responsible for the identification, designation and orbit computation for all of these objects.

SCIENCE DIRECT

http://www.sciencedirect.com/ http://www.sciencedirect.com/

VIA Sheldon Harvey, Greenfield Park, Quebec

ScienceDirect is a leading full-text scientific database offering journal articles and book chapters from more than 2,500 journals and almost 20,000 books.

AN INTRODUCTION TO MIRAGES

http://mintaka.sdsu.edu/GF/mirages/mirintro.html
http://mintaka.sdsu.edu/GF/mirages/mirintro.html

VIA Sheldon Harvey, Greenfield Park, Quebec

What's a mirage? Mirages are not optical illusions, as many people (and Web sites!) think. They are real phenomena of atmospheric optics, caused by strong ray-bending in layers with steep thermal gradients. Because mirages are real physical phenomena, they can be photographed.

RADIO H.F. PUBLICITY ZONE #3

What is new in books & publications from the American Radio Relay League, the Radio Society of Great Britain, and other publishers?

A History of QST Volume 1: Amateur Radio Technology
Edited by Ward Silver, N0AX
For nearly a century, ARRL’s membership journal, QST, has advanced the art and science of Amateur Radio by delivering timely, engaging and valuable information to ham radio operators. Each month, ARRL members enjoy pages of features and columns full of the latest equipment reviews, technical tips, projects, and news.
A History of QST — Volume 1: Amateur Radio Technology captures important technical contributions, adaptations, and syntheses of technology throughout Amateur Radio’s first century. Through a collection of QST pages and other ARRL publications, a commentary of multiple authors reviewed the Amateur Radio literature, selecting imperative advances in the state of the art and articles that illustrate them. Each is preceded by a short introduction explaining the article's significance and relevance. As you turn the pages, you’ll uncover amateur inventions and their support of science through individual efforts and cooperation across the entire Amateur Radio community. The journey begins in the era of spark, continuing through the present and into our second century, touching upon signals, antennas, propagation, modes, circuitry, satellites, and more. A bibliography of additional and supporting references is provided for further exploration.
Product Details
Softcover: 352 pages (superior gloss finish)

Publisher: The American Radio Relay League, Inc.; First Edition/First Printing (December 2013)
ISBN: 978-0-62595-003-1 - Order No.: 0003
Price: $29.95 Canadian or U.S.

A History of QST Volume 2: Advertising
Author: Joe Veras, K9OCO
For nearly a century, ARRL's membership journal, QST, has advanced the art and science of Amateur Radio by delivering timely, engaging and valuable information to ham radio operators. In addition to pages of feature articles and columns, ARRL members have enjoyed poring over the advertisements found in each issue, mesmerized by the latest and greatest station equipment.
A History of QST — Volume 2: Advertising is a nostalgic look back at Amateur Radio technology, activities and interests over the last century. Through a collection of QST pages and advertising, Joe Veras, K9OCO, traces the history of receivers, transmitters, antennas and other station gear from 1915 to today. Notable highlights of the Amateur Radio Service are included for each decade, along with advertising representative of the era. As you turn the pages, technology changes, bands are added and modes of operation come and go. You are sure to see many familiar names—manufacturers who are still innovating and contributing to the state-of-the-art, along with ones who gradually faded into history and others who barely got off the ground. It is an intriguing journey of Amateur Radio's rich and varied history—told through the creative marketing, advertising and photography of yesteryear.
Product Details
Softcover: 384 pages (superior gloss finish)
Publisher: The American Radio Relay League, Inc.; First Edition/First Printing (December 2013)
